

# Quick start guide

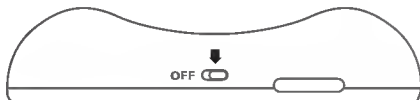

## Insert batteries

- Open the battery cover
- Insert the 2 AA batteries
- Snap the cover back into place

## Turn on power switch

- Batteries will provide power when switch is in ON position. To preserve batteries, even when iPod touch is in standby mode, it is recommended to turn OFF the battery case.

## Insert iPod touch

- Pull back the corners of the rubber cover
- Insert your iPod touch, connecting to the 30-pin
- Pull the corners of rubber cover onto the base to secure your iPod touch
